In the past year, OCRID members were distinguished with awards for outstanding achievements, obtained grants to further their work, and were recruited as assistant professors to Oklahoma State University. The College of Veterinary Medicine at Oklahoma State University recently hired 6 new faculty members, which includes Dr. Anthony Burgett, OCRID Pilot Project Leader 2019.

Congratulations to Drs. Veronique Lacombe, OCRID Project Leader from the Department of Physiological Sciences, College of Veterinary Medicine on her role as Associate Professor, The Department of Pharmaceutical Sciences, The College of Pharmacy, The University of Oklahoma, with innovative solutions.

OCRID Director Sunil More, DVM, Ph.D, Assistant Professor, The Department of Veterinary Pathobiology, College of Veterinary Medicine, Oklahoma State University was awarded the Zoetis Distinguished Investigator Award, or MIRA (Maximizing Investigators Research Opportunities Award) for 2019.

Dr. Matthew Cabeen, MD, Oklahoma Health Sciences Center, along with his colleagues at the Oklahoma Children's Hospital Research Institute (OCRID) has been working on developing new, broad-reaching research projects. Two current collaborative projects are the Identification of Novel Pathogens in Neonates with Pulmonary Infections and the Discovery and Development of New Vaccines for Neonatal Infections.

Dr. Anthony Burgett, OCRID Pilot Project Leader 2019 was awarded a $50,000 grant from the National Institute of Food and Agriculture to study bovine respiratory disease. Bovine respiratory disease is a serious issue for the livestock industry and has a significant economic impact. The grant will allow for them to understand why RNA viruses need the human OSBP protein to proliferate, including through the use of OSBP inhibitors.

OCRID Members were recognized for their achievements in this challenging time. Avishek Mitra, PhD, Associate Professor, The Department of Pharmaceutical Sciences, The College of Pharmacy, The University of Oklahoma was the recipient of the Kienlen Lecture in Biomedical Research and Dr. Clinton Jones was a recipient of the Oklahoman Research and Innovation Award for 2022.
